

Are Slip and Fall Cases Dignified?

This video briefly explores the rational of what really happens when someone slips and falls. First, when we all become adults, we pretty much have **"how to walk correctly"** down pat. When we are born, we don't know how to walk just yet. It takes time. But as we grow older, we know how to walk correctly and safely. So, when somebody falls down in a store or place made unsafe by someone else, that defies logic.

It really does not make sense until we focus on the facts of what really happened. We need to know why they fell, and when you analyze along these lines, you usually come to the undeniable conclusion that somebody chose not to follow the correct safety protocols to prevent the injury in the first place.

# The 5 Big Benefits of Having Medical Pay on Your Car Insurance

Medical Pay in California is available under your automobile insurance in California as a "voluntary add-on." This means it is not required by California law, but rather elective by you. I ALWAYS recommend a person to have medical payments under their car insurance because it is like having extra health insurance under your car insurance that will pay for medical bills that require payment right away, to help to protect your credit. Sometimes your private health plan does not pay for everything, or you have co-pays that are owed. Yes, you will get a settlement at some future point, but sometimes your medical bills need payment right away.

## El Cajon Family Gets Justice Under Policy Limit Settlement

We represented a pair of brothers, and one sister, who got into a really bad car accident while picking up their sister from work. The at-fault car hit them at full speed of at least 50 mph after running through a red light. Thankfully, the person at fault carried a \$500K liability policy, and we were able to get medical pay benefits for the siblings as well.

# What Clients Have to Say About Working With Us

#### **David Cowie**

"I experienced a crazy situation in that I was in 2 separate accidents less than a month apart during the summer of 2020. The first accident was when I was rear ended while traveling through Alabama. Then, about 3 weeks later, a car that I was a passenger in was hit here in San Diego. I was referred to Attorney Mark Blane by my chiropractor. I met with Mark and he instantly put my mind at ease and let me know that he would take care of me. He was terrific throughout the process and did a great job coordinating with my attorney in Alabama as well. Mark was very easy to work with and very communicative. He always kept me informed and was able to coordinate with my many care providers to help me to get a fair settlement. I would highly recommend Attorney Mark Blane to anyone needing help due to an accident or just legal advice."
